Empanelment of Diagnostic Centers in Mohali/Chandigarh/Panchkula

#### 1. **Introduction**

Semi-Conductor Laboratory (SCL) is an autonomous body under the Ministry of Electronics & Information Technology (MeitY) located in Sector 72, S.A.S. Nagar, (Mohali), has 813 employees (Prime Beneficiaries). The total number of beneficiaries (Employees and their dependent family members) is about 2100. SCL Contributory Health Scheme (SCHS) under which medical attendance and treatment is provided to the contributing their dependent family members employees and Authorized Medical Officers (AMOs), Specialist empanelled Doctors, Multi-Specialty Hospitals, Diagnostic Centers Pathological Laboratories. All the beneficiaries are issued SCHS cards for identification to avail the services of Diagnostic Centers on referral (in prescribed referral forms) by the empanelled AMOs/Specialist Doctors/Multi-Specialty Hospitals.

#### 2. Cashless Services

The Diagnostic Centers shall provide cashless service to the SCHS beneficiaries referral on by the AMO/Specialist Doctor/Multi-Specialty Hospital empanelled under SCHS. Payment shall be made by SCL to the Diagnostic Centre at the approved/accepted rates for the Investigations/Tests conducted against their bills within agreed period.

#### 3. Rates

Proposed rates for the Investigations/Tests shall be quoted in the attached Annexure. Proposed rates are also to be sent in excel format through email to <a href="mailtoschs\_admin@scl.gov.in">schs\_admin@scl.gov.in</a>. Upon receipt of applications and proposed rates in prescribed format, SCL shall communicate the rates acceptable as per Schedule of Rates (SOR). On agreement with SCL rates and fulfilling other conditions laid down, diagnostic centers will be considered for empanelment.

- (ix) Provision for adequate sitting area in imaging center.
- (x) Empanelment shall be based on evaluation of multiple parameters as decided by the competent authority.

#### 5. Radiological Center

- (i) Availability of Qualified Radiologists in respective field i.e.MD (Radio Diagnosis), DNB (Radio Diagnosis) or DMRD.
- (ii) Availability of Modern gadgets/machines to conduct the routine X-Ray/Digital X-Ray/USG, Color Doppler study, Barium Study, IVP etc. fulfilling the following requirement would be preferable. Radiographer with BSc in Medical Radiography and Imaging Technology, MSc in Medical Radio Imaging.

#### For MRI Centers:

- (i) MRI Machine with magnet strength of 1.5 Tesla or more.
- (ii) Availability of Radiographer (technician) having requisite degree/diploma (B.Sc. in Radiography). Experience of at least one year would be preferable.
- (iii) Reports analysis and authentication by Medical officers having requisite degree.

#### For CT Scan Centers:

- (i) Facility for whole Body CT Scanner with scan cycle of less than one second (sub second).
- (ii) 256 Slice Scanner is preferred.
- (iii) Approval of AERB.
- (iv) Availability of Technician having DMLT diploma and Radiographer (technician) having requisite degree/diploma. Experience of at least one year would be preferable.
- (v) Reports analysis and authentication by Medical officers having requisite degree.

### For X-Ray Centers/Dental X-Ray/OPG Centers:

(i) X-Ray machine with minimum current rating of 500 MA with image intensifier TV System.

- (ii) Portable X-Ray machine with minimum current rating of 60 MA.
- (iii) Dental X-Ray machine with minimum current rating of 6 MA.
- (iv) OPG X-Ray machine with minimum current rating of 4.5-10MA.
- (vi) Approval of AERB.
- (vii) Availability of Technician having requisite degree/diploma and experience of at least one year would be preferable.
- (viii) Reports analysis and authentication by Medical officers having DMRD/MD (Radiology) degree.

#### > For Mammography Center:

(i) Standard quality Mammography Machine with low radiations and biopsy attachment.

#### For USG/Colour Doppler Center/Echo:

- (i) Standard equipment having convex, sector linear probes of frequency range from 3.5 to 10 MHz with minimum three Probes and provision/facilities of trans vagina/trans ractal probes.
- (ii) Registration under PNDT Act.
- (iii) Reports analysis and authentication by medical officers having requisite degree by Radiologist.

### 6. For Centers other than Pathology/ Microbiology & Radiology

(i) Availability of special investigation facility like EEG (32 channels), EMG/NCV (+/- 10% error), ECG (12 lead), Nuclear Medicine investigation conducted and reported by the concerned specialist.

- (ii) Bone densitometry Center: capable of scanning whole body
- (iii) Nuclear Medicine Center: approved by AEPB/BARC.

#### 7. Period of Empanelment

The empanelment will be initially for a period of three years or for the number of years NABH/NABL Accreditation is valid for the centre-whichever is less; subject to satisfactory services rendered.
