

SCL Introduction

Semiconductor Laboratory (SCL), an autonomous body under the Ministry of Electronics and Information Technology (MeitY), Government of India, is the only Integrated Device Manufacturing Facility in the country providing end-to-end solutions for Development of Application Specific Integrated Circuits (ASICs), Opto-electronics devices, and Micro Electro Mechanical System (MEMS) Devices encompassing Design, Fabrication, Assembly, Packaging, Testing, and Reliability Assurance.

Vision

- Create a strong research and development (R&D) base in the country in the field of microelectronics
- Design & Development of devices in cutting-edge technology
- Manufacture VLSI / MEMS-based systems & sub-systems
- Transform SCL as a Centre of Excellence in Microelectronics in the country

Mission & Commitments

- Design and manufacture advanced technology-based VLSI devices and MEMS systems & sub-systems to support strategic needs of the country
- Provide services for the assembly and packaging of silicon wafers in ceramic packages and chip-on-boards
- Facilitate testing, reliability & quality assurance, and failure analysis mechanisms for existing and prospective semiconductor-based microelectronic products
- Undertake, aid, promote, guide, and coordinate research to promote the development of the semiconductor ecosystem in India

SERVICES/SERVICE STANDARDS and TIMELINES

SCL does not execute any subsidy programme / service directly for public.
